CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this results announcement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this results announcement.

This results announcement, for which the directors (the “Directors”) of Anacle Systems Limited (the “Company”) collectively and individually accept full responsibilities, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company and its subsidiaries (together the “Group”). The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief, the information contained in this results announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this results announcement misleading.

FINANCIAL HIGHLIGHTS

From Third Quarter 2019

	Nine months ended	
	28 February 2019 (unaudited) S\$	28 February 2018 (unaudited) S\$
Revenue	7,437,633	10,340,150
Gross profit	1,223,442	4,351,428
Loss/(profit) before tax	(3,086,372)	153,041

28.1% DECREASE IN REVENUE

Starlight Project commencement delays and introduction of new Project implementation methodology and reporting framework resulted in delivery delays. Simplicity's pipeline from existing customers remains healthy and so is Starlight's. The group is now stepping up its effort to expand to international market to achieve a higher revenue growth. Revenue from myBill and SpaceMonster continued to grow steadily which partially offset the lower revenue from Starlight and Simplicity.

71.9% DECREASE IN GROSS PROFIT

Decrease in revenue growth combined with a moderate increase in cost of sales contributed to lower gross profit and gross profit margin.

S\$ 3,239,413 DECREASE IN PROFIT BEFORE TAX

Higher sales, marketing and product development expenses combined with the decrease in revenue resulted in the net loss position during the Reporting Period.

DIVIDEND

The Board has not declared the payment of a dividend for the nine months ended 28 February 2019 (28 February 2018: S\$Nil).

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Third Quarter 2019

1. GENERAL INFORMATION

The Company was incorporated as a limited private company in Singapore on 21 February 2006. On 25 November 2016, the Company was converted into a “public company limited by shares” under the Singapore Companies Act and the Company was renamed from Anacle Systems Pte. Ltd. to Anacle Systems Limited with immediate effect. The address of the Company’s registered office and principal place of business is 1 Fusionopolis View, #08-02 Sandcrawler, Singapore 138577.

The Company was listed on the GEM on 16 December 2016.

The principal activities of the Group are software development, provision of enterprise application software solutions and energy management solutions, and provision of support and maintenance services.

The unaudited condensed consolidated statement of comprehensive income and the unaudited condensed consolidated statement of changes in equity of the Group for the nine months ended 28 February 2019 (the “**Third Quarterly Financial Statements**”) were approved for issue by the Board on 8 April 2019.

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES

The Third Quarterly Financial Statements have been prepared in accordance with International Accounting Standard 34 “Interim Financial Reporting” issued by the International Accounting Standards Board (“IASB”) and the applicable disclosure requirements of the GEM Listing Rules. The Third Quarterly Financial Statements have been prepared under the historical cost basis.

The Third Quarterly Financial Statements are presented in Singapore Dollar (“S\$”), which is the same as the functional currency of the Company.

The Third Quarterly Financial Statements do not include all the information and disclosures required in the annual financial statements and therefore should be read in conjunction with the annual financial statements for the year ended 31 May 2018 (the “**2018 Financial Statements**”).

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES (CONT'D)

The Third Quarterly Financial Statements have been prepared in accordance with all applicable International Financial Reporting Standards, International Accounting Standards and Interpretations (hereinafter collectively referred to as the “IFRSs”) and the disclosure requirements of the Companies Ordinance. The accounting policies and methods of computation used in the preparation of the Third Quarterly Financial Statements are consistent with those used in the preparation of the 2018 Financial Statements.

3. ADOPTION OF INTERNATIONAL FINANCIAL REPORTING STANDARDS (“IFRS”)

(a) New/revised IFRSs adopted as at 1 June 2018

In the current period, the Group has adopted for the first time the following new/revised IFRSs which are relevant to the Group’s operations and effective for the Group’s condensed consolidated financial statements for the annual period beginning on 1 June 2018.

IFRS 15 - Revenue from Contracts with Customers

IFRS 15 has been applied retrospectively without restatement, with the cumulative effect of initial application recognised as an adjustment to the opening balance of retained profits at 1 June 2018. In accordance with the transition guidance, IFRS 15 has only been applied to contracts that are incomplete as at 1 June 2018.

IFRS 15 establishes a single revenue recognition framework. The core principle of the framework is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. IFRS 15 supersedes existing revenue recognition guidance including IAS 18 Revenue, IAS 11 Construction Contracts and related interpretations.

IFRS 15 requires the application of a 5 steps approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to each performance obligation
- Step 5: Recognise revenue when each performance obligation is satisfied

Under IFRS 15, the Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good and service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

3. ADOPTION OF INTERNATIONAL FINANCIAL REPORTING STANDARDS (“IFRS”) (CONT’D)

(a) New/revised IFRSs adopted as at 1 June 2018 (Cont’d)

IFRS 15 - Revenue from Contracts with Customers (Cont’d)

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract asset represents the Group’s right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with IFRS 9. In contrast, a receivable represents the Group’s unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group’s obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

In respect of revenue from projects, the Group recognises revenue at a point in time when the customer obtains control of the distinct goods and services.

In respect of revenue from recurring services and lease of equipment, the Group recognises revenue over time by reference to the progress towards complete satisfaction of the relevant performance obligation.

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

3. ADOPTION OF INTERNATIONAL FINANCIAL REPORTING STANDARDS (“IFRS”) (CONT’D)

IFRS 9 - Financial Instruments

IFRS 9 makes major changes to the previous guidance on the classification and measurement of financial assets and introduces an “expected credit loss” model for the impairment of financial assets.

The adoption of IFRS 9 has impacted for trade receivables, retention receivables and contract assets, the Group applies a simplified model of recognising lifetime expected credit losses as these items do not have a significant financing component.

The directors of the Company reviewed and assessed the Group’s financial assets as at 1 June 2018 based on the facts and circumstances that existed at that date. The application of IFRS 9 has had no material impact on the classification and measurement of financial assets on the condensed consolidated financial statements.

(b) New/revised IFRSs that have been issued but are not yet effective

The Group has not early adopted the new/revised IFRSs that have been issued but are not yet effective for the current accounting period. The Group is currently assessing the impact of these new or revised IFRSs upon initial application but is not yet in a position to state whether these new or revised IFRSs would have any significant impact on its results of operations and financial position. It is anticipated that all of the pronouncements will be adopted in the Group’s accounting policies in the accounting periods when they first become effective.

Information on new and amended IFRSs that are expected to have impact on the Group’s accounting policies is provided below. Other new/revised IFRSs are not expected to have a material impact on the Group’s condensed consolidated financial statements.

IFRS 16 - Leases

IFRS 16 provides a comprehensive model for the identification of lease arrangements and their treatment in the financial statement of both lessors and lessees. The standard provides a single lessee accounting model, requiring lessees to recognise assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value.

A lessee is required to recognise a right-of-use asset and a lease liability at the commencement of lease arrangement. Right-of-use asset includes the amount of initial measurement of lease liability, any lease payment made to the lessor at or before the lease commencement date, estimated cost to be incurred by the lessee for dismantling or removing the underlying assets from and restoring the site, as well as any other initial direct cost incurred by the lessee.

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

3. ADOPTION OF INTERNATIONAL FINANCIAL REPORTING STANDARDS (“IFRS”) (CONT’D)

(b) New/revised IFRSs that have been issued but are not yet effective (Cont’d)

IFRS 16 - Leases (Cont’d)

Lease liability represents the present value of the lease payments. Subsequently, depreciation and impairment expenses, if any, on the right-of-use asset will be charged to profit or loss following the requirement of IAS 16 “Property, Plant and Equipment”, while lease liability will be increased by the interest accrual, which will be charged to profit or loss, and deducted by lease payments.

IFRS 16 will primarily affect the Group’s accounting as a lessee of leases for a number of properties which are currently classified as operating leases. The application of the new accounting model is expected to lead to an increase in both assets and liabilities and to impact on the timing of the expense recognition in the statement of profit or loss over the period of the lease.

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

4. SEGMENT REPORTING

The Group determines its operating segments based on the reports reviewed by the chief operating decision-maker that are used to make strategy decision.

The Group has three reportable segments. The segments are managed separately as each business offers different products and services and requires different business strategies. The following summary describes the operations in each of the Group's reportable segments:

- **Simplicity and myBill** – a package of enterprise application software solutions that provides specific solutions for municipal services management, commercial real estate management, corporate real estate management, as well as industrial asset management;
- **Starlight** – a one-stop cloud-based energy management solutions that provide real-time access to the energy profiles of buildings, including information such as energy consumption, power quality, demand analytics and carbon footprint profiles; and
- **SpaceMonster** – an online venue booking platform.

Inter-segment transactions, if any, are priced by reference to prices charged to external parties for similar order. Central revenue and expenses are not allocated to the operating segments as they are not included in the measure of the segments' profit that is used by the chief operating decision-maker for assessment of segment performance.

MANAGEMENT DISCUSSION AND ANALYSIS

Business Review

Established in 2006, the Group is a fast-growing IT company based in Singapore. We specialise in offering, via the on-premise model and SaaS delivery model, (i) enterprise application software which is designed to assist commercial property and building owners in managing their real estate assets and facilities, and (ii) energy management system which is designed to assist commercial property and building owners in monitoring and managing their energy consumption. Besides researching, designing, developing and implementing software and hardware solutions, we also provide upgrades, maintenance and after-sales support to our customers. Our products reach end-users across various countries and regions including Singapore, Malaysia, China and other Asian countries, and various industries including commercial real estate, education, healthcare, government, utilities and oil and gas. Our mission is to design and deliver practical and easy to use innovations that will have immediate positive impact to our customers.

The Group derived a majority of its revenue from Simplicity which is a self-developed enterprise application software solution that offers specific solutions for municipal services management, commercial real estate management, corporate real estate management, as well as industrial asset management. Starlight is a self-developed energy management solution that combines software and hardware components and is a one-stop energy management solution for commercial property and building owners to monitor energy usage in buildings, including energy consumption, power quality, energy analytics and carbon footprint profiles, which helps end-users better manage their energy usage and cut costs. SpaceMonster is an online portal designed to bring together and match people who need short-term meeting and leisure facilities with organisations that own or manage such venues. myBill is a pay-per-use utilities revenue assurance platform for the liberalized electricity market in Singapore. In a newly liberalized and fully competitive electricity market, energy retailers will not know in advanced how many customers they can sign up. The myBill platform is targeted at energy retailers that cannot afford multi-million dollar billing software by allowing them a pay-per-use scheme for electricity billing.

The decrease in Simplicity's total revenue was mainly attributed by the delay in the renewal of recurring service contracts by customers. The decrease of S\$451,091 in recurring revenue was attributed to the delay. Revenue from Simplicity enterprise application software implementation remained stable as compared to the nine months ended 28 February 2018. The majority of corporate or commercial real estate owners have used our Simplicity software. System enhancements and upgrades by our existing customers contribute to our healthy pipeline for Simplicity. We are focusing on providing further value added services to existing customers to support the revenue growth.

We acknowledge that to achieve the next phase of major revenue growth for our Simplicity application software implementation we have to expand overseas. We have expanded our sales and delivery of Simplicity enterprise software to the PRC market, which to date, have contributed to S\$550,350 of revenue.

We will continue to maintain our focus on both value added services to our existing customers and our efforts on overseas market expansion.

Our major energy implementation project in Singapore which contributed to the majority of revenue in the nine months period ending 28 February 2018 is now nearing completion. The delay in the commencement of our new smart-home energy monitoring in Singapore and smart-nation energy monitoring in Malaysia contributed to the significant decrease in Starlight revenue.

We have also significantly increased our sales efforts to overseas market and our marketing efforts to promote Starlight and **TESSERACT** to both local and overseas market.

Our pipeline for Starlight remain healthy which is an indication that that demand for energy management remained strong to sustain future revenue growth for Starlight.

myBill is a pay-per-use utilities revenue assurance platform for the liberalized electricity market in Singapore. In the newly liberalized and fully competitive electricity market, also known as the Open Electricity Market, energy retailers will not know in advanced how many customers they can sign up. The myBill platform is targeted at energy retailers that cannot afford multi-million dollar billing software by allowing them a pay-per-use scheme for electricity billing.

Post Singapore's soft launch of the Open Electricity Market in late April 2018 in the district of Jurong with 130,000, Anacle has signed up 4 energy retailers onto the platform. It has been announced that the full liberalisation of the market for 1.5 million household and small commercial consumers will take place in phases from 1 November 2018 to 1 May 2019.

Subscription to myBill platform has been increasing steadily since its launch in June 2018. From its initial launch to the Reporting Period, myBill has generated revenue of S\$275,174 (28 February 2018: S\$Nil).

SpaceMonster

Nine months ended 28 February 2019 S\$		Nine months ended 28 February 2018 S\$

During the Reporting Period, **SpaceMonster's** revenue increased significantly by 2,202% as demand in venue sharing services continued to increase, especially as **SpaceMonster** was selected to be the platform for the Government Technology Agency of Singapore ("GovTech") initiative for venue sharing among 90 government agencies.

MANAGEMENT DISCUSSION AND ANALYSIS

Future Prospect and Outlook

Our corporate objective is to achieve sustainable growth in our business and financial performance so that we can create long-term Shareholder's value.

The Singapore markets for enterprise application software and building energy management systems remain robust and are expected to grow throughout 2019. With Singapore's focus on Smart Nation (especially Smart Energy) initiatives, the Starlight business unit is expected to provide major contribution to the Group's growth in financial year 2019.

Many countries in Asia are putting out pilot programs to commence their Smart City journeys and Anacle is the market leader in putting the Smart in the edge of the grid. As such, the benefits of Starlight and Tesseract will be felt both by the enterprise users of energy as well as residential households. With such positive developments, the Directors are optimistic about the Group's long term growth.

The TESSERACT, our revolutionary Internet-of-Things device for the smart energy market has far greater capabilities and computing power than competing brands of smart meters in the same price range. With most of the R&D and product development accomplished, the Group can now focus on commercialising the TESSERACT, which we expect will be a key driver for the Starlight business unit in the current and next financial year.

MANAGEMENT DISCUSSION AND ANALYSIS

Financial Review

REVENUE

Revenue for the Group for the Reporting Period decreased by S\$2,902,517 or 28.1% from S\$10,340,150 during the nine months ended 28 February 2019 to S\$7,437,633 during the Reporting Period. Revenue from Simplicity decreased by S\$447,901 and revenue from Starlight decreased by S\$2,817,657. The decrease in Simplicity's and Starlight's revenue was partially offset by an increase in revenue from SpaceMonster and our new business unit, myBill. Detailed analysis of each business unit's revenue are discussed in the preceding Business Review section.

COST OF SALES

During the Reporting Period, cost of sales for the Group increased by 3.8%. Simplicity's cost of sales increased by 64.6% which is offset by the decrease in Starlight's and SpaceMonster's cost of sales by 60.0% and 5.3%, respectively. The primary factor for the increase in Simplicity's cost of sales was staff cost and third party contractors' costs for certain Simplicity projects.

GROSS PROFIT AND GROSS PROFIT MARGIN

The Group's overall gross profit decreased by S\$3,127,987 or 71.9% during the Reporting Period. Gross profit margin, however, has decreased by 25.6% due to higher cost of sales and.

Simplicity's gross profit margin decreased by 35.1% due to a high profile government smart office project which selected Anacle's Simplicity out of a large competitive field of leading international technology firms. Simplicity's gross profit also decreased by S\$2,187,640 due to higher cost of sales and lower revenue.

myBill, our new utilities revenue assurance platform is currently in its initial trial run and we are pleased to report that the number of subscriptions have been increasing and so has the revenue. myBill's revenue has increased by 167.8% during the Reporting Period as compared to our second quarter ended 30 November 2018. myBill's gross loss margin has decreased to 66.9% from the reported gross loss margin of 183.8% during our last second quarter. We expect myBill's number of subscriptions will continue to grow and we expect that myBill will turn profitable in the next financial year.

Starlight's gross profit decreased by S\$848,368 due to the decrease in its revenue as discussed in the preceding Business Review section.

SpaceMonster has finally turned profitable with a healthy gross profit margin of 85.0%.

MANAGEMENT DISCUSSION AND ANALYSIS

Financial Review

ADMINISTRATIVE EXPENSES

Administrative expenses have remained fairly stable. During the Reporting Period, administrative expenses reduced by 2.4% or S\$65,981.

MARKETING AND OTHER OPERATING EXPENSES

Sales, marketing and distribution expenses have increased by 11.7% or S\$138,689 because the group has stepped up its overseas business development efforts for both Simplicity and Starlight to expand the market to overseas. The group continued to participate in trade fairs and on-going overseas sales activities to expand the Group's business geographically, especially to the PRC region.

RESEARCH AND DEVELOPMENT COSTS

The Group continued to invest in improvements and enhancements to the existing products to better served the evolving market. New features have been continuously added to enhance our customers' experience in using our Simplicity, Starlight and myBill products.

NET LOSS BEFORE TAX

Lower revenue and an overall increase in cost of sales, sales and marketing as and research and development expenses have resulted in a net loss before tax of S\$3,086,372 during the Reporting Period (28 February 2018: Profit S\$153,041).

CORPORATE GOVERNANCE AND OTHER INFORMATION

SHARE OPTION SCHEMES

Pre-IPO Share Option Schemes

The Company adopted two Pre-IPO Share Option Schemes with the approval of the Board. The principal terms of the two Pre-IPO Share Option Schemes are substantially identical to each other.

The Pre-IPO Share Option Schemes are intended to promote the interests of the Company by providing eligible individuals who are responsible for the management, growth and financial success of the Company or who otherwise render valuable services to the Company with the opportunity to acquire a proprietary interest, in the Company and thereby encourage them to remain in the service of the Company.

These Pre-IPO share options are exercisable at either approximately S\$0.01 per share or S\$0.07 per share (as the case may be and taking into account the automatic adjustment due to the sub-division of shares of the Company that took place on 24 November 2016), each becoming exercisable in four equal tranches at the end of each year commencing from the grant date and shall expire (i) ten years from the day on which the Pre-IPO share options become exercisable; or (ii) three years from the Listing Date, whichever is earlier.

As at 28 February 2019 and the date of this results announcement, share options comprising 31,179,876 underlying Shares have been granted to 11 grantees under the terms of the Pre-IPO Share Option Schemes. These grantees comprised two Directors, four members of our senior management, and five current/former employees of the Group.

All the above Pre-IPO share options have not been exercised as at 28 February 2019 and as at the date of this results announcement.

Post-IPO Share Option Scheme

The Company has conditionally adopted the Post-IPO Share Option Scheme which was approved by written resolutions passed by the Shareholders on 24 November 2016. Since the adoption of the Post-IPO Share Option Scheme, no share option has been granted, exercised or cancelled by the Company under the Post-IPO Share Option Scheme and there were no outstanding share options under the Post-IPO Share Option Scheme as at 28 February 2019 and as at the date of this results announcement.

CODE OF CONDUCT REGARDING SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted a code of conduct regarding securities transactions by Directors on terms no less exacting than the Required Standard of Dealings. The Company had made specific enquiries with all Directors and each of them has confirmed his compliance with the Required Standard of Dealings throughout the Reporting Period.

CORPORATE GOVERNANCE AND OTHER INFORMATION

DIRECTORS' AND CONTROLLING SHAREHOLDERS' INTERESTS IN COMPETING BUSINESS

During the Reporting Period, none of the Directors or the controlling shareholders of the Company, or their respective close associates had an interest in any business which directly or indirectly competed or might compete with the business of the Group.

PURCHASE, SALE AND REDEMPTION OF THE COMPANY'S LISTED SECURITIES

Neither the Company nor any of its subsidiaries repurchased, sold or redeemed any of the Company's listed securities during the Reporting Period.
